

ENGINEERING SERVICES

MANAGEMENT
•
CONSULTANCY

Precise. Effective.

From design to hand-over

Our engineering services, which are managed under Protechtiv team, include wide range of skills-

- ❖ Design- cleanrooms, production facilities, laboratories
- ❖ Construction
- ❖ Construction supervision
- ❖ Machines installation and commissioning- production equipment, packaging lines, autoclaves
- ❖ Process cycle development
- ❖ Hand-over

Your challenge requires the professional that is able to see the bigger picture. Someone that will cover all

angles, consider every detail, find the safest and cost-effective solution.

Our team is
ready to deliver!
