QUALITY

Comprehensive. Quality.

The full range of qualification

Our validation services, which are managed under Protektiv team, include both mechanical and computerized systems qualification. Our team deliver the entire validation package to you:

- ❖ Validation plan
- ❖ IQ\OQ\PQ protocols (writing and execution), based on risk assessments
- ❖ Full validation reports
- ❖ Traceability matrix
- ❖ Compliance with EU and FDA regulation
- ❖ We work strictly under the cGMP and GDP guidelines.

The vast experience of our team-members with all sorts of systems is your benefit (clean utilities, water systems,

clean-rooms and HVAC systems, lab equipment, process equipment, packaging lines, control systems, QMS, track and trace systems, steam sterilizers and ovens, warehouses, refrigerators and freezers, etc.)
